

# STEWARDSHIP

WEEK 1

K-1<sup>st</sup>

TAKING CARE  
OF WHAT  
YOU HAVE

BECAUSE IT  
ALL BELONGS  
TO GOD

**BOTTOM LINE:** Remember, everything belongs to God.

Read Genesis 2:15

DAY 1

## Adopt a Plant

Have a grownup take you to a garden center in a store or a nursery and purchase a plant seed. At home, take a cup and write Genesis 2:15 on it. Plant the seed in the cup. Water the plant and make sure it has plenty of sunlight. Watch how the plant changes and grows.

**LOOK** at how God works in His creation.

DAY 2

## Help with a Meal

Tonight, ask if you can help make the food. As you are helping, talk about where you would find each ingredient in creation. Help cook the meal and clean up afterward.

**KNOW** that God gave us His creation to enjoy—like a good meal.

DAY 3

## Take a Walk

Go for a walk outside. Look around at the sky, the water, the trees, and the plants. Look at dead branches, dried up leaves, and old plants on the ground as well. God created a way for plants to die in the winter and grow again in the spring.

**THINK** about how God takes care of His creation and know He also takes care of you.

DAY 4

## Creation Journal

Draw a picture or make a collage in the space below of some of your favorite creations God made (mountains, trees, ocean, flowers, food, animals).  
**ASK** God to help you take care of His creation.

Pray: God thank you for your creation. Thank you for making the trees, the mountains, the oceans, and the sky. Thank you for creating animals, fish, and birds. Thank you for creating people. Help me to take care of your creation in the way you want me to. Amen.
